

Filigran Academy - Individual options

Tailored courses and practical training to elevate your expertise at every level.

DESCRIPTION

Filigran Academy is the all-in-one learning platform designed to help you master Filigran solutions, including OpenCTI and OpenAEV. Through structured courses, hands-on exercises, it provides an ideal learning path for both beginners and advanced users.

LEARNING PATH

Filigran Academy offers a structured, progressive learning path designed for different skill levels:

101 - Fundamentals

Covers the basics, including core concepts, interface navigation, and foundational workflows.

201 - Intermediate application

Focuses on real-world use cases, integrations with security tools, automation, and team collaboration.

301 - Advanced & certification preparation

Explores complex use cases, advanced configurations, custom development, and prepares learners for certification.

COURSE SERIES

A course series is a specialized training track focused on a specific use case or skill. Each purchase includes one year of access with continual course updates for the year. Complete the series, pass the final assessment, and earn a verified badge.

SUBSCRIPTION MODEL

Basic plan

Includes 101 and 201 learning tracks with badge rewards.

Premium plan

Provides access to exclusive premium content, 301-level courses along with all Basic Plan content.

	MONTHLY	ANNUALLY
Basic Plan	99€	1,188€
Premium Plan	149€	1,788€

PAY PER BADGE OPTION

With our Pay-Per-Badge program, you can take a course series at your own pace and then apply what you've learned through a final assessment. Upon successful completion, you'll earn an exclusive badge that validates your expertise. Additionally, you'll have the chance to win prizes as a reward for your achievement.

OpenCTI 101	99€
OpenCTI 201	149€
OpenCTI 301	199€

This option allows you to showcase your skills and gain recognition.

ABOUT FILIGRAN
